1. We agree with your recommendation that CAISSON 19 be sent to Munich to search for ☐ ☐ even though the chances of success are slim. Rather than giving CAISSON 19 a large expense account for a two-month period, in addition to the 1000 RM monthly subsidy already authorized for him, it would probably be more practical to give him enough operating cash, for, say, a two-week period during which he could scout around to see if there are any leads. At the end of this period he should present some plan of action to FEM. If it then appears that he has anything at all to go on, the project should be continued.

2. We presume that by briefing CAISSON 19 "fully" on our knowledge of the HASELDORFER business connections you mean to tell him only what he will need for his investigations and nothing that would cross lines with the Vienna plan discussed in WKA-5069.
WKA-19

3. If CAISSON 19 has not already been advised not to have contact with ☐ ☐ while he is in the Frankfurt area, this should be done before he starts on the quest for ☐ ☐
